COVID 19 RESPONSE
IN COLLABORATION WITH STATE GOVERNMENTS AND CIVIL SOCIETY ORGANISATIONS
Submitted to the Ministry of Home Affairs
Last updated on 31st August, 2020
International Justice Mission under the aegis of NGO Darpan DL/2017/0161571 has been working with various States and Central government on human trafficking for over two decades. We work alongside government officials and grassroots organisations to rescue and rehabilitate victims, prosecute offenders and train public justice officials. In the event of out-break of this pandemic, we have been tirelessly mobilizing our resources to compliment and support Government endeavours for Covid 19 related activities.

In this regard, the under listed are some of the important areas wherein we have aided and supplemented the efforts of the Government and local administration to benefit society, particularly the frontline workers, and migrant workers in the last five months:

1. Assisted the State Governments through several e-workshops in training hundreds of Government Officials on safety measures during Covid 19 lockdown. The e-workshops have meant to equip police officials with information and approaches to enable protection of people in poverty from bonded labour, human trafficking, and sexual abuse, particularly of children, in the states of Odisha, Madhya Pradesh, Maharashtra, Karnataka, Tamil Nadu, West Bengal, Assam and Meghalaya;

2. Extended support with distribution of thermal screening guns, PPE kits and other protective provisions like face shields and masks, hand gloves, sanitisers and soaps for police personnel, court functionaries, and labourers in urgent need;

3. Created awareness on crucial aspects of prevention, hygiene, social distancing and isolation in vernacular languages to fight Covid 19;

4. Supplemented the Governments efforts in supplying cooked food and ration kits to people in poverty, orphans in shelter homes, rescued victims of bonded labour and sex-trafficking, and homeless migrant workers;

5. Supported the local administration from end to end in meeting the urgent needs of migrant labourers without resources by paying their rent, electricity bills, and safe transportation during lockdown.
**DIRECT RESOURCE MOBILISATION ACTIVITIES**

**Where**
- 15 States
- 151 Districts

**Who**
- People 29540
- Govt. Officials 12534

**What**
- Ration Support
- Health & Hygiene Supplies
- Awareness Generation
- Food Relief
- Other Assistance
Mobilised through partnerships
